

Project Engineer Integrated Systems (Eindhoven)

Pregis is a leading protective packaging company with manufacturing facilities in Stevenage (UK), Herbrechtingen (Germany), Heerlen, Born and Eindhoven (The Netherlands). We manufacture a wide range of innovative and sustainable packaging solutions that we supply to customers throughout Europe. Everything we do at Pregis revolves around our customers. Our ambition is to grow considerably, which requires flawless, consistent and reliable employees.

To support our Integrated Systems team, we now have an opening for a Project Engineer.

General Purpose of the Job

The Integrated Systems department develops and designs custom made solutions to improve ergonomics, safety and efficiency of our customer's packing process. The Project Engineer is responsible from design to implementation of Integrated Systems in Europe.

Key tasks and responsibilities

- Visit customers, advise on possible solutions, recording together with Sales Representative;
- Translate customer requirements into a clear, concise design with costing and pricing;
- Project preparation;
- Design and presentation of the integrated system using a 3D drawing program, Sketchup;
- In consultation with the Project Manager ensuring an adequate planning of the installation at our customer;
- Provide support for commissioning in case of complex installations;
- Communicating progress to all parties involved in the project, with a view to timely delivery and customer satisfaction;
- Internal follow up on quotations, inquire about status, engage suppliers, etc.
- In this function you will report to the Team leader Integrated Systems.

Requirements

- You have completed a technical HBO education preferably with a direction in mechanical engineering;
- Experience with 3D design software;
- You have excellent oral and written communication skills in Dutch and English. Any other foreign language is a plus;
- You are willing to make short business trips within Europe.
- Flexible self-starter who is action oriented and can work independently and in a team with a strong customer focus;
- Ability to deliver creative solutions to customer problems;
