

## Films PRO PAK'R 200x130 LD

- Ergonomic friendly by easy tearing
- Void filling
- LD-based for clearer look

The type of film consists of 2 small openings of 3,5 cm each in the middle of each perforation.

It ensures an easier, ergonomic and faster way of tearing the air cushions.

For a clearer look, the film is made of LDPE.

This film type is ideal for customers who perform a lot of manual tearing.

## Machine & Accessories

The PRO PAK'R is equipped with the latest technology. It is fast, smart, easy to use and compact. It works with various films.

## Air Cushion Specifications

- Size cushion: WxL= 200x130 mm
- Thickness: 23 micron
- Material: LDPE
- Clear & transparent with green print
- 100% recyclable
- Product code: 4078996

## Specifications

### ROLLS

- Roll length: 900 metre
- Roll weight: 7.5 kg
- Volume per roll: 5.5 - 6.0 m<sup>3</sup>

### PALLET

- Rolls per pallet: 66
- Number of layers: 6
- Rolls per layer: 11
- Pallet weight: 515 kg
- Pallet dimensions: LxWxH in cm= 120x80x138

## Characteristics

### Environmental Friendly

- 100% Recyclable
- Suitable for energy recovery
- Very light, 99% air
- Complies with EN13427 standard for packaging and packaging waste
- Printing is made from water-based ink

### Technical Specifications

- Non toxic
- Groundwater neutral
- Chemically inert
- Dust-free
- Wear-resistant
- Can be transported problem free via the existing recycling systems for PE
- Water repellent

### Storage Conditions

- Store covered in a clean dry room
- Average storage condition should be 20°C (max. 30°C)
- During winter we recommend to store the rolls on site at room temperature at least 24 hours before use
- Keep the rolls out of direct sunlight
- Rolls must be kept at least 2m from any heat source

## Packing Applications

- Void Fill

- Block & Brace
