

## Films MINI PAK'R V3 Renew Zero 200x130

- 100% carbon neutral
- 100% recycled content
- 100% recyclable
- ISCC certified process

The Renew Zero air cushion is created out of 100% recycled content and is 100% carbon neutral. It is made from a combination of 50% post-consumer recycled content and 50% renewable waste.

For 50%, the air cushion is made from products that have been used by consumers and have been recycled after serving their purpose. For the other 50%, it is created out of renewable, sustainable sources that are waste from plants, such as paper pulp. These ISCC certified sources and production process ensure a carbon neutral product that contributes to a sustainable world and circular economy.

In other words: it is sustainable and circular... the print included! This is printed on each air cushion with a water-based ink, so it's not harmful to the environment. The film complies perfectly with the European legislation for packaging and packaging waste: EN13427.

## Machine & Accessories

The **MINI PAK'R V3** is a compact and versatile machine producing air cushion on-demand. Compatible with Integrated Systems and a large range of accessories, the machine is the right solution for warehouses and distribution centers with multiple packing tables. Using RFID, the film settings are automatically selected, which make the machine easy to use.

## Air Cushion Specifications

- Size cushion: WxL = 200x130 mm
- Thickness: 19 micron
- Material: LDPE
- Grey cushion, white print
- 100% recyclable
- 100% recycled content
- Carbon neutral
- Product code: 4082091

## Specifications

### ROLLS

- Roll length: 515 metre
- Roll weight incl. core: 3.9 kg
- Roll core weight: 0.2 kg
- Volume per roll: 4 m<sup>3</sup>

### PALLET

- Rolls per pallet: 156
- Number of layers: 6
- Rolls per layer: 26
- Pallet weight: 633 kg
- Pallet dimensions: LxWxH in cm= 120x80x140

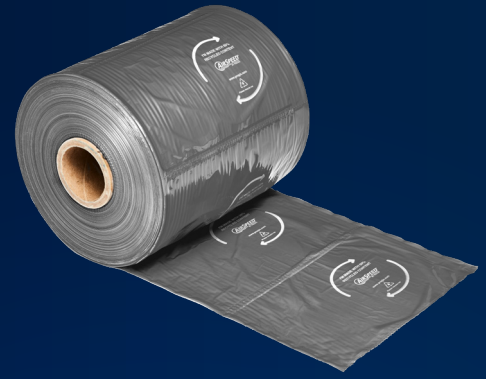

## Applications

- Void Fill

- Block & Brace

## Characteristics

### Environmental Friendly

- Carbon neutral
- Made of 100% recycled content
- Natural resources are less taxed
- Reusable and 100% recyclable
- Suitable for energy recovery
- Cleaner (dust free) and lighter (98% air) than paper
- Complies with EN13427 standard for packaging and packaging waste, independently tested by PIRA.
- Printing is made with water-based ink print

### Technical Specifications

- Non-toxic
- Groundwater neutral
- Chemically inert
- Dust-free
- Problem-free transport via existing PE recycling systems
- Water repellent

### Storage Conditions

- Store covered in a clean dry room
- Average storage condition should be 20°C (max. 30°C)
- During winter we recommend to store the rolls on site at room temperature at least 24 hours before use
- Keep the rolls out of direct sunlight
- Rolls must be kept at least 2m from any heat source
